Trailhead playground management -

- \* A trailhead playground is an org you can use to complete hands on challenges, & try out new features
- \* Trailhead playground has some limits but for the most part they give you the same customization
- \* A DE org is an org that we provide for free to test new features & implementation in isolation without affecting production.
- \* Trailhead playground is like a DE org but specifically for Trailhead.
- \* Check log in to a Developer edition from the dropdown in any hands on challenge.
- \* Create a Trailhead playground.
