

## Morning session

Date - 12/6/2020

Name - Rashmi

Course - ~~PCB~~ design Java.

USN - UAL18EC013

Topic - String builder &  
string format.

Sem - IV sem.

Repository - Rashmi.k

Report:

\* String builder, buffer &amp; format :

```
public static void main (String[] args) {
```

```
// inefficient
```

```
String info = "";
```

```
info += "My name is Bob.";
```

```
info += " ";
```

```
info += "I am a builder.";
```

```
System.out.println (info);
```

```
StringBuilder ab = new StringBuilder ("");
```

```
ab.append ("My name is Sue.");
```

```
ab.append (" " );
```

```
ab.append ("I am a lion tamer.");
```

```
System.out.println (ab.toString());
```

\* ToString method :

```
private int id;
```

```
private String name;
```

```
public fcong (int id, String name) {
```

```
    this.id = id;
```

```
    this.name = name;
```

```
public String toString () {
```

```
    return id + " ; " + name;
```

```
}
```
