Topic - Arrays of strings.

Sem - IV Sem.

Repository - Rashmi

Report :

* Arrays of strings

```
public static void main (String [] args) {
    String [] words = new String [3];
    words [0] = "Hello";
    words [1] = "to";
    words [2] = "you";
    System.out.println (words [2]);
}
```

* Multidimensional arrays

* Classes and objects

* Methods

* Getters & Return values.

* Setters and 'This'

```
public static void main (String [] args) {
    class Frog
```

```
    String name;
```

```
    int age;
```

```
    public String getName () {
        return name;
```

```
    }
}
```

* Static (and final).
